Career Highlights

- An innovative and creative Front-End Developer with 2 years of experience developing web applications using Angular, React and Typescript.
- A passionate coder who creates rich functionality, visually appealing, and easy-to-use interfaces using Responsive Web Design, Material UI, Ant Design and Nebular.
- An enthusiastic and reliable team player who thrives on collaborating with teams dedicated to delivering exceptional service and solutions.

Skills:

- Angular
- React
- TypeScript
- JavaScript
- HTML5
- CSS3
- Flexbox, Grid
- RxJS
- GraphQL
- REST
- Axios
- Material UI
- Ant Design
- Nebular
- PWA
- Strapi (CMS)

Professional Experience

Tiger Martial Arts, Bath, United Kingdom

Jul 2022 – Sep 2023

Front-End Developer (remote)

- Developed and implemented a CRM system to manage Martial Arts clubs for an extensive Martial Arts company in the UK, including managing such areas as parent-student relationships, attendance, registration, student assignments and final grades.
- Automated business processes for managing student and class-related operations by implementing new pages and maintaining existing ones, leading to a 70% increase in efficiency.
- Implemented responsive design across all pages, enhancing the user experience on tablets and mobile devices, and concurrently improving work efficiency.
- Migrated the entire application to the next version of the API, resulting in a 50% acceleration of data playback requests. This enhancement significantly improved data retrieval speed, providing users with faster access to information.
- Successfully implemented a Progressive Web App (PWA), achieving seamless offline functionality, real-time updates, and consistent data maintenance.

Tech stack: Angular · TypeScript · HTML5 · SASS · Flexbox · Responsive Design · REST · Progressive Web Application (PWA) · Nebular · RxJs · Git

BN Digital, Ukraine

Jan 2022 – Jun 2022

Front-End Developer (remote)

- Designed an online marketplace for a European car rental agency.
- Created new components and demonstrated commitment to maintaining existing ones.
- Enhanced the responsive design of applications by implementing responsive web design patterns and incorporating Ant Design UI components, thereby elevating the overall user experience on tablets and mobile devices.
- Integrated Strapi (CMS) into applications, utilizing GraphQL, achieving simplified and efficient content management.
- Successfully designed and developed landing pages based on Figma mockups, ensuring a seamless translation of conceptual designs into fully functional and visually appealing web pages.
- Collaborated closely with a dynamic team of developers and designers, facilitating open communication to discuss project details, and ensuring a cohesive approach towards successful project execution.

Tech stack: React · TypeScript · GraphQL · Strapi (CMS) · Ant Design · Grid Layout · HTML5 · LESS · Responsive Design · Figma · Git
